

Christian Obanaka

Software engineer · Design engineer · Futures trader

christian@godsbattle.net · godsbattle.net · linkedin.com/in/christian-obanaka · Lagos, Nigeria

I am a software engineer, design engineer, and futures trader. I combine product design, engineering, and firsthand trader knowledge to build focused financial-product experiences.

Experience

Tradara	Software Engineer - Full-Time	Aug 2026 - Aug 2026
Built Tradara's futures terminal and prop-trading infrastructure.		
thePropTrade	Head of Community - Full-Time	Nov 2025 - Jul 2026
Scaled the community and improved day-to-day support for active traders.		
PipFarm	Community + Affiliate Manager - Full-Time	Feb 2025 - Nov 2025
Grew Discord from 5k to 10k members in five months while improving activity and referrals.		
PokerDAO	Community Manager - Part-Time	Apr 2022 - Dec 2024
Grew Discord and Telegram from 3k to 7.5k members while halving support response time.		

Education

University of Port Harcourt	2021 - Oct 2025
Bachelor's degree in Mathematics & Computer Science - Port Harcourt, Nigeria	
Federal Government College	2017 - 2020
Senior Secondary 1-3 - Port Harcourt, Nigeria	
Wisdom Gate Intl. College	2015 - 2017
Junior Secondary 1-3 - Port Harcourt, Nigeria	

Selected project

trackmyprop	Product direction · UX/UI design · Frontend implementation
A desktop workspace for prop-firm traders managing accounts, rules, trades, journals, costs, and payouts. Built with React, TypeScript, Tailwind CSS, Next.js, and Electron.	

Capabilities

Community	Community strategy, engagement, moderation, partnerships, support operations
Design	Product and interface design, interaction design, prototyping, design systems
Engineering	React, TypeScript, Next.js, Tailwind CSS, Electron, Cloudflare, accessibility
Domain	Trading, prop firms, trader support, community operations, AI-assisted delivery
